Dear Janin,

Dear partners,

I share your disappointment. I am also curious to see the explanation of the Commission. Taking a look on the list of the successful applicants, I could say that there are less projects than in 2008 (only 56), that all are over 350.000 E, and the most are (rather big) public organizations..

Thank you for trusting me, as a partner. I certainly be there if you want to work in this project the next year.

I wish you happy summer holidays.

Best regards,

Carmen
